Tanmay Anand

Hyderabad, Telangana, India

📞 +91-6206829978 ✉ tanmayanand2002@gmail.com ⌨ github.com/Tanmay-Anand

Profile

I'm a **B.Tech** graduate with a solid foundation in **software development** and **problem-solving**. I work well with **Java**, **web technologies**, and **database systems**, and I focus on writing clean, efficient code. Through hands-on projects and self-learning, I've built and improved applications that strengthened both my technical and teamwork skills. I'm confident in **debugging**, **customer communication**, and collaborating to resolve technical issues. I'm now looking for a role in **technical support** or **software support** where I can contribute immediately and keep growing as a developer.

Projects

Personal Portfolio (*tanmay.netlify.app*)

− Created and deployed a responsive portfolio on Netlify, optimized for performance and user experience.
− Tech: HTML5, CSS3, JavaScript

Creative Website (*almost-real.netlify.app*)

− Designed and developed a creative photography website to showcase visual work with responsive, minimal UI.
− Tech: HTML5, CSS3, JavaScript, Git/GitHub

Clone of a Corporate website (*Website Link*)

− Developed a functional clone of a corporate website to practice modern UI design and responsive layouts.

Education

Galgotias College of Engineering And Technology   May 2020 − July 2024
B.Tech in Mechanical Enginnering   *Noida, UP, India*

Skills

Programming Languages: Java (Core Java, Java 8), JavaScript (ES6), TypeScript, SQL, PL/SQL, HTML5, CSS3
Frameworks & Libraries: Spring Boot, Bootstrap, React.js, RESTful APIs, Microservices
Databases: Oracle, RDBMS Optimization, SQL/DDL scripting
Developer Tools: Git, GitHub, Eclipse, VS Code, Netlify, DevOps Basics
Core Concepts: Data Structures & Algorithms, OOP's, DBMS, SDLC, Quality Assurance, Content Moderation
Soft Skills: Problem-Solving, Attention to Detail, Customer-Centric Approach, Team Collaboration, Flexible Scheduling

Technical Experience

Full-Stack Development: Built responsive web applications using Spring Boot and RESTful APIs, integrating front-end and back-end for seamless performance.
Database Management: Wrote SQL and DDL scripts to manage, query, and optimize Oracle schemas.
Version Control & Collaboration: Managed projects using Git & GitHub, ensuring code quality and team coordination.
Problem Solving & Quality Assurance: Solved 100+ algorithmic challenges and applied QA practices to ensure reliability and maintainability of code.

Achievements

- Solved several DSA problems on LeetCode and HackerRank, strengthening my understanding of algorithms and data structures.
- Maintained active GitHub profile with multiple hosted projects and consistent contributions.

Certifications

- Java Full Stack − NareshIT (Mar 2025)
